We believe in ingredients, so we start there. Our approach is to give you upscale flavours in a casual and fun setting. We work closely with our local farmers, growers and purveyors to source products with integrity, flavor and soul. The result is food that is honest, straightforward and pays homage to the bounty of the region we are so lucky to call home. Our wine and beer list are the same way. You'll notice that we have an entire page just for exclusively made Nova Scotian product.
